

CCA iGEM Science Fair

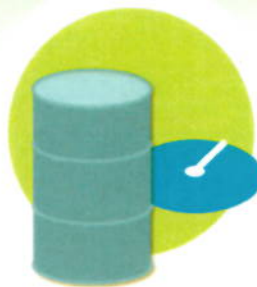

WHO ARE WE? A group of high schoolers from Canyon Crest Academy using our passion for science to help better our environment! **WHAT ARE WE DOING?** We are currently researching effective ways to break down toxic chemicals found in crude oil, which we believe would have great implications for cleaning up oil spills.

Ocean Crude Oil
Pump and Treatment

Byproduct
Management

Waste Treatment

Isolation and
Understanding PAH
Degradation

Friday, September 21st

3:30 – 5:30 PM in the Proscenium at CCA
