ENROLLING IN THE DIGITAL CLASSROOM:

Our first order of business for ISPE is to get our digital classroom set-up. For this school year, our class will be using Google Classroom to turn-in all assignments. Please follow these steps to enroll and later access our class:
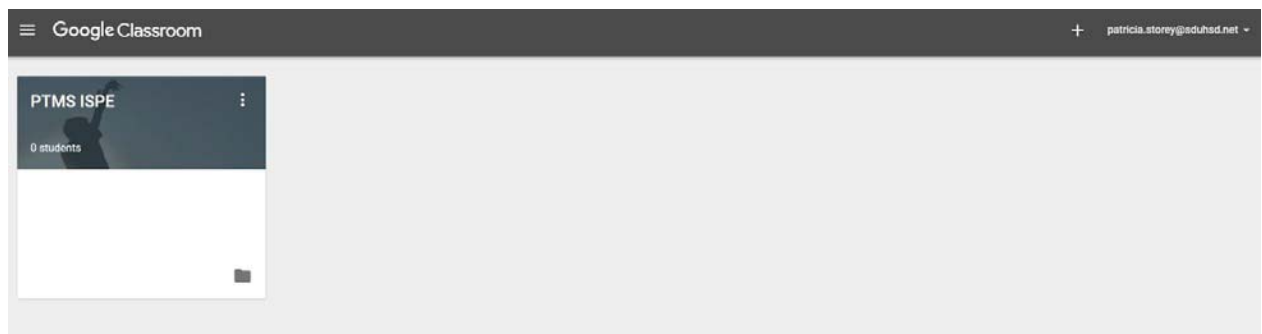

1. Go to my.sduhsd.net

2. Click on the Classroom   **Classroom**   icon --->

3. Sign in with your SDUHSD login

4. When in the Google Classroom home page, click the + symbol located at the top right and select "Join".

5. At this time you will be prompted for a class code. After typing in the code, click "Join"
   *** class code is **uhzg60***

6. You should now be enrolled in the ISPE Google Classroom course. Let's get into the digital classroom and see what the first assignment is. From the Classroom home page, click on the class name to enter class.

7. Follow the directions in the assignment titled "Fall Goals" to complete it. All assignments will be submitted digitally through this application and this first assignment is an opportunity to become familiar with our Google Classroom set-up. If you were required to revise your goals, please use the revised version for this assignment.

If you need help with getting set-up or really with anything ISPE, please talk with Mrs. Storey during the school day. This assignment is not due for almost two weeks, but plan accordingly so you do not leave it until the last minute.
